

SOCIAL WORK, MSW AND PUBLIC HEALTH, MPH (MSW/MPH)

Grace Abbott School of Social Work, College of Public Affairs & Community Service, College of Public Health, University of Nebraska Medical Center

Vision Statement

The MSW/MPH dual degree program is a collaborative effort between the University of Nebraska Medical Center, College of Public Health, and the University of Nebraska at Omaha, Grace Abbott School of Social Work. This program offers interdisciplinary preparation in the fields of social work and public health leading to the master of social work and the master of public health degrees, with fewer required credit hours than it would take to obtain these degrees independently.

This dual degree program prepares students to provide a variety of advanced social work services with individuals, families, groups, organizations, and communities. This dual degree also allows graduates to assume leadership in the public health sector to promote and protect physical and mental health, with a focus on population-based services, prevention, collaboration, and strategies and policies grounded in basic science.

Students beginning the MSW/MPH program at the MSW Foundation level must complete 81 credit hours total. Students beginning the MSW/MPH program at the Advanced Standing level, must complete 57 credit hours total.

- **Statement of Purpose:** The statement of purpose is an opportunity to demonstrate your understanding of and fit for the social work profession, as well as your aptitude for graduate-level social work education. The Admissions Committee pays close attention to both content and writing skills. In your statement of purpose, please address each of the items listed below, in no more than five (5) pages, double-spaced, in a 12-point font. Your response to each of the items should be roughly the same length.  - What type of work are you planning to engage with once you attain your MSW degree? Specifically, what are the issues, populations, and levels of practice you hope to work with after graduate school?
 - The social work profession is rooted in social justice. Social workers adopt a stance of cultural humility and strive towards cultural awareness. Discuss a time when you realized that one of your personal or cultural identities influenced your reaction to a social situation. Reflecting on that experience, how might it influence your future social work practice?
 - Social workers are self-reflective, strengths-based, and growth-oriented. Identify a strength that you possess and an area for growth. Discuss how you became aware of these, how they show up in your current professional practice, and how they may influence your future professional practice.

At least one reference should be from an immediate professional supervisor. If you have graduated from an academic program within the past two years, it is suggested that at least one reference should be from a faculty member who can speak directly to your academic preparation for graduate social work education.
