

LOGISTICS & SUPPLY CHAIN MANAGEMENT CONCENTRATION

The logistics & supply chain management concentration is for students who wish to focus on the supply chain functions within an organization. These functional areas include logistics (transportation management and scheduling), procurement (purchasing and materials management), effective resource management (lean manufacturing and lean supply chain management), and the three pillars of sustainable chains (people, profit, and planet).

For this concentration, students complete a total of eighteen (18) credit hours including nine (9) credit hours in required concentration core courses and nine (9) credit hours in concentration electives.
