

SOCIAL WORK, BACHELOR OF SCIENCE

Requirements

The social work program is divided into two segments – pre-professional coursework and the professional BSSW program. Students also have room for general electives to further pursue their interests. The number of general electives required varies for each student (12-18 credit hours).

Pre-Professional Social Work Courses

Students are required to complete some university general education courses and social work specific requirements prior to admission into the Professional Social Work Program.

1. UNO General Education - all BSSW students must complete the UNO General Education Curriculum. Some general education courses may overlap with social work requirements – see your advisor for more details.
2. Social Work Pre-requisite Course Requirements - a variety of courses are designated as pre-requisites to the social work program. These courses are intended to provide a foundation of understanding in a variety of areas relevant to social work.

Professional BSSW Program

Students who apply and are accepted into the BSSW program complete a sequence of professional social work courses as well as a practicum experience and social work specific electives.
